

# GRIPSUREPRO

GripsurePro is our most popular range of commercial non-slip decking boards and the ultimate performer for all types of projects. We have a non-slip solution for every application, from large public decking areas to ramps, bridges and boardwalks.

Our timber is high quality Scandinavian Redwood Vths, hand selected for the ultimate finish, and FSC certified (No TT-CoC 003864). Our boards are independently tested for slip resistance to BS7976 and achieved results in excess of 90 PTV (using the pendulum tester), classifying them as “extremely low potential for slip”.

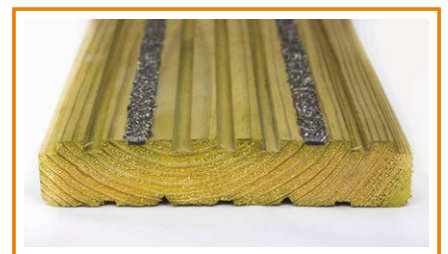

## GRIPSURE PRO - CLASSIC

With an independent slip resistant rating of 100PTV (pendulum test value), Pro Classic achieves the highest safety rating on the market and is ideal for high profile projects.

## GRIPSURE PRO - CONTEMPORARY

Create a deck with clean lines and minimum fuss that looks modern and functional. Pro Contemporary is a plain deck board with two non slip white aggregate inserts.

## GRIPSURE PRO - CASTELLATED

A traditional deck profile with deeper grooves to aid drainage. With 2 anti-slip inserts for an excellent slip resistant finish.

# GRIPSUREPRO - Our original anti-slip decking board and still the best

## PRODUCT RANGE DETAILS

- Non slip finish, safe, reliable and proven performance for peace of mind
- 15 year preservative treatment warranty (please see separate technical specification for full details)
- 3 year warranty for non-slip inserts
- Nominal size of profile: 150mm x 32mm: Finished size of profile: 145mm x 28mm
- Lengths: 2.4m, 3.6m, 4.8m
- Other profile sizes and lengths available on request

## FITTING INSTRUCTIONS

Gripsure recommend the GripsurePro range is fitted using Spax Wirox decking screws (4.5mm x 60mm stainless steel)

## CROSS CUTTING

Any cuts, notches or drill holes to GripsurePro decking during construction must be treated with a suitable end-grain preservative to maintain the integrity of the preservative treatment, and the 15 year in service life.
